

Reclamation District No. 1004

September 4, 2026

Re: Winter Water Applications and Payments

Dear District Landowners and Water Users:

The District is now accepting winter water applications for the upcoming water season, with water deliveries beginning October 1. Please note that water applications and payment must be received before water can be delivered.

District office staff will be out of the office from October 15 through October 30. Applications and payments received after October 14 may not be processed until staff return. To ensure timely processing of your winter water request, please return your completed water application and payment to the District office no later than October 14.

Please refer to the enclosed water application for required information and instructions. The application is also available on the District's website for your convenience.

Winter Water Charges

- Water Toll: \$14.00 per acre-foot
- Winter Water Deposit: \$35.00 per acre; required unit duty: 2.5 acre-feet per acre

We appreciate your cooperation in submitting your winter water application and payment by October 14. This will help the District process requests efficiently before the office temporarily closes.

If you have any questions regarding the application or payment, please contact us before October 14.

Important: River pumps will be turned off on December 31, and water may not be available after that date.

Thank you for your cooperation.

Respectfully,
